

My name is **Daniela Schnirtzová**. I graduated from University of Trnava, where I studied in the major of Social Work. In my late 20ties I moved to Ireland where I gained a Montessori Teaching diploma and taught as a Teacher assistant in Mulberry Montessori and as a preschool Teacher in Little Oaks Creche.

Before teaching at Benjamin preschool in 2013, I spent a year with my family in Canada where I was working as an educational assistant in a private Elementary school. I then joined Benjamin preschool and worked on creating a wonderful program for children who love to dance, learn, play and make new friends. I used my knowledge in education to help our pre-schoolers get ready for kindergarten in a safe and fun learning environment.

After spending 3 years in Benjamin I went on to teach English language courses including the Montessori method. I believe not only in the importance of educating children academically, but also in providing them with life skills needed for them to be successful as they grow.

I'm excited to be returning back to Benjamin and to have the opportunity to guide children on their journey through their preschool days. Outside of the classroom I enjoy spending time with my family, swimming, reading novels and exploring the beautiful world around us.
