

My name is **Mary Babkovič** and I will teach your child in Preschool class for 3-4 year olds at Trnavská. I have a master's degree in special education from Comenius University in Bratislava and a postgraduate degree from the Secondary school for Pedagogy. I assisted in an American preschool in Sunnyside, Washington for a few weeks. I have a 8 years old daughter Olívia who attends the Narnia elementary school in Pezinok.

I can see how easily kids learn languages and it is great that kids in Benjamin have this opportunity. I have been with Benjamin since its birth and have a place in my heart for it. First, I assisted with afternoon activities and Summer Schools; and since April 2011 I worked as a teacher for 3-4 year olds, 4-5 year olds and 2-3 year olds. I try to create a home and friendly environment for kids because they learn easier in a nicer atmosphere, both through games and different activities.

"If you want your children to be intelligent, read them fairy tales. If you want them to be more intelligent, read them more fairy tales." - Albert Einstein
