

My name is **Martina Repčáková** and I come from Humenné. I started playing recorder and flute since I was 6 years old attending Folklore and Art School. After I finished my studies at Medical high school in Humenne, I moved to Bratislava to study Music Science at Comenius University. I have 3 children who kept me busy at maternity leave for 12 years. Afterwards I started my studies at Cirkevné Conservatory in Bratislava, majoring in flute after 6 years of study with a title Dis. art. Meanwhile I started teaching recorder at local preschools and elementary school in Limbach and at Narnia in Pezinok.

I love my job because it combines my two loves: the one to music and the one to children.
