

My name is **Valentína Sivošová** and I studied piano at the Conservatory in Bratislava. After graduation, I worked at several art school as a pianist and a piano teacher. Currently I work at the Music School in Modra, where I focus on teaching piano 6 – 18 year old children.

In Benjamin Preschool I work with children in pre-school age. I supervise them on the way to getting to know music and piano, to familiarize them with the world of music through children's songs and simple tunes and I'm also trying to enhance their musical talent and interest in playing an instrument playful way. This interesting and creative work with little human beings makes me very happy and it enrich my pedagogy practice and it gives me new knowledge in artistic formation and sensibility of new generation.
