

My name is **Erik Džačovský** and I have been cooperating with the Benjamin preschool for 5 years. I would like to take the time to introduce our company PK – TAXI, which provides personal transportation, transit and courier services since 2009. We are a successful, dynamic and reputable partner. Our goal is to provide our clients with the highest quality possible. We pay attention to the reliability, safety and quality of our cars.

Our drivers are professional drivers with many years of experience. We are the only company providing professional transportation for children in the Pezinok area. We have been cooperating with Benjamin preschool since 2012. Just as Benjamin preschool cares about education, we care about the safe and comfortable transportation of children to and from school, extracurricular activities and other events.
