

My name is **Ela Benediková** and I, myself, attended Benjamin preschool and sought out to join as a member of staff. This was as I cherish and appreciate the opportunities I gained from being able to learn English at such a young age. In addition, I was able to study my whole life in English schools. I finished high school at the Kings School International, completing my Advanced Level qualifications in art, business and English. I am especially passionate about art. I am looking forward to merging creativity with education while teaching children at Benjamin preschool.

I am looking to apply to either an art or pedagogical collage.
