

My name is **Jana Kosieradzka**. I come from Bratislava. After school I decided to go to England as an au pair and learn English there. I attended SCAT college and I received several Cambridge certificates. Later I met my husband who is Polish and after two years we moved to Slovakia, where we started our family. We have got two daughters, Olivia 13 and Lucia 9 years old. We love to spend time together by playing games, taking walks with our dog, gardening, bicycling and having fun together.

In Slovakia I worked for an international company for ten years. I used to work with people from all around the world which I found very interesting.

But since I was a little girl I was dreaming of becoming a teacher, so I took the opportunity and during my second maternity leave I started to study at Pedagogical and social academy in Bratislava. I graduated in 2018 and in the same year I started to work for Benjamin preschool and my daughter Lucka started to attend Benjamin preschool too. We both enjoyed time here a lot. We both learnt and grew. I taught children in every class, mostly I taught children 4-5 y.o..

Working with children fills me with new energy, I enjoy children's ingenuity and imagination, as a complete reward I see how they progress. Children are our future, so I try to surround them with love, to prepare a stimulating environment for them that will only move them forward and make them feel safe in it. Good friendships in the classroom are also very important to me, which I try to develop on a daily basis through games and activities focused on social ties.

Looking forward to meeting you soon!
