

Hello! My name is **Jeannette Korbaš** (friends call me Jean). I was born in Davao City, Philippines and raised in Manila, Philippines. I attended the Centro Escolar University in the Philippines and graduated with a Bachelor of Science in Tourism. I love traveling and so I decided to work in Australia for a year and then continued to work in America for 5 years. Throughout this whole time, I studied and worked towards my dream of becoming a teacher. My journey brought me here to Slovakia. People often ask me what am I doing in Slovakia? The fact is that my husband is Slovak and we met in Papenburg, Germany and then moved to Slovakia to raise a family. We were blessed with a healthy and beautiful baby boy we named Sean.

In Slovakia I have worked as a pre-school teacher in private kindergartens and continued my career at a private bilingual school in Bratislava.

In my spare time I enjoy my flowers in the garden and unwinding with a glass of wine with my lovely husband while listening to Sean playing piano.

I am excited for this amazing opportunity of rejoining the Benjamin Preschool team as some time ago I had the chance to be already part of the team and I look forward again to working along with all the wonderful teachers and students. I am the class teacher working across all age groups.

My goal is to be for your children the best accompanying guide and teacher. I am proud to see my kids learning and having fun. I call them "my kids" because in our year together they aren't just my students in my classroom, they become a part of my life. I'm looking forward to getting to know you all.
